

CAP AU LESTE

Sainte-Rose-du-Nord

A PLACE MADE IN HEAVEN !

Situated atop the majestic Saguenay Fjord, Cap au Leste Inn is a true haven of peace and wild beauty. On the edge of the fjord, the accommodations are spread across five chalets built along the cliff so that each one always offers a breathtaking view of the fjord. A main chalet, which includes a restaurant, bistro-bar, large panoramic terrace, relaxation pool, and sauna, dominates the collection of chalets scattered across the property.

Constructed in the purest Quebec tradition with squared timber and old materials, all the buildings have views of either the fjord or the forest.

These chalets blend superbly into the mountainous environment and offer comfort and a warm atmosphere. The rooms do not have televisions or phones to allow you to fully enjoy nature and the delights of summer. Free Wi-Fi is available at the main inn.
